Completion
in 2005!

Be here next year!

A charming Mediterranean village with luxury apartments and penthouses of two, three and four bedrooms set in a prestigious urbanisation with swimming pools and landscaped gardens. The beautiful Santa María golf course is just five minutes away and sweeping views down to the sea complete this evocative image. This is the reality of **Santa María Village**: the latest project from Sifasa Group, the developers of Las Terrazas and Los Patios de Santa María Golf. **Now under construction and ready for delivery in December 2005!**
